Dr. Bowers

Spring 2022

- a) I tested my program by making my own file in the examples directory “myex.mypl” to test specific parts of my code while I was working on it. I ran the unit tests provided for each section to check my work periodically. I made sure all the tests ran completely with no failures or errors.
- b) This assignment really made me think of specific and tiny parts of the code. I had trouble trying to remember everything to check every little thing.
